

THE VACUWORX ADVANTAGE

» The Vacuworx Advantage is based on three key elements: unique product design, top quality fabrication and outstanding service. As a result of these fundamentals, our clients realize other important advantages.

SAFETY

- Fewer ground personnel required, which reduces the risk of accident
- Conforms to ANSI/ASME standards section B30.20a
- No pipe hooks to set-it or chains to wrap risking accident by climbing on the load, and or damaging any coatings

SPEED

- Much shorter loading and unloading cycle
- Any pipe surface can be handled
- Pipe can be stockpiled without spacers
- Any coating can be handled

COST-SAVING

- Fewer ground personnel required, less payroll costs
- In some applications certain types of concrete pipe can be joined without additional ground crew
- Much quicker and therefore more economical than pipe hooks, pipeforks or pipe tongs
